

# 2014 PROGRAM

## Green Scenes

ENVIRONMENTAL

short film  
competition

## **Raise Your Voice, Not the Sea Level by Kruize Leahy**

*This film is about the sea level rising and what we can do to stop it. The concept behind the film is raising awareness about the sea level rising and what we can do to stop it. The solutions discussed in the film include things we can do on a personal level and using your voice to raise awareness of the issue. By raising your voice, it will get the issue heard by many authorities and more people will make changes. But, if you don't raise your voice, the issue might not stop and could even get worse!*

Kruize Leahy  
Music: Flo Rida  
digital film, length: 30 sec

## **Voice of Reason by Felicia Lloyd**

*A child raises his voice about the impact of humans on the natural environment. With maturity and awareness beyond his years, the voice of reason comes from a vessel of innocence and pure joy as he reveals the power we have to make a positive change.*

Felicia Lloyd and Cael Mortimer  
Original music created with Toca Boca  
digital film, length: 30 sec

## **Gordon the Gnome by Margaret-Mary Opstelten Gladstone West State School**

*Gordon the Gnome loves to visit beautiful places but asks everyone to keep the world a beautiful place by picking up their rubbish and taking it with them.*

Mrs O and Gordon  
Photo Story Loops  
digital film, length: 28 sec

**HIGHLY COMMENDED**

## **Raise Your Voice! by Riley Clow**

*My movie is about a man who lives on an island. The sea level begins to rise, consuming his island; until King Neptune comes and waves his mighty trident, making the water level subside to once again reveal his tropical island home.*

Riley Clow (with a little help from Mum)  
Lego Movie Maker  
animation film, length: 30 sec

**HIGHLY COMMENDED**

## **Save the Penguins by Talia Clow**

*My movie is about a penguin habitat getting destroyed by global warming. So we need to raise our voice to speak up to help animals keep their homes and make sure we all have a happy and healthy environment for the future.*

Talia Clow (with a little help from Mum)  
Lego Movie Maker  
animation film, length: 30 sec

## ***Raise Your Voice, Not the Sea Level* by Jessica Rose**

*This film focusses on littering and that if you don't pick up your rubbish, the sea level (represented by the blue water in the cup) will rise, but if you speak up and stop littering then you can make a difference.*

Jessica Rose  
digital animation film, length: 29 sec

## ***The Adventures of Super Vern and Eco Girl* by Isabella Wood-de-Melo**

*Super Vern the Environmental Pug and his side-kick Eco Girl are fighting for the environment. By recycling, turning off lights and encouraging people to use solar power and they also fight pollution all to help decrease the impact on the ocean levels.*

Isabella Wood-de-Melo and Dorothy Wood-de-Melo  
*imovie*  
digital film, length: 30 sec

### **THE ULTIMATE FILM PRIZE**

## ***Where is Boyne Island?* by Adam Gray**

*If we ignore Global Warming, what will happen to Boyne Island?*

Adam Gray  
digital film, length: 30 sec

### **THE SUPREME FILMMAKER PRIZE**

## ***65 Metres* by Ben Hanson**

*Nature shots, with a description of rising sea levels on the screen. Sometimes, the shot relates to what is being described on screen.*

Ben Hanson  
*Breakless* by Degobah (Dean Fridman)  
digital film, length: 30 sec

**2014 Green Scenes: Environmental Short Film Festival**  
an initiative of the Gladstone Arts Council  
in support of Gladstone Regional Council's annual  
EcoFest celebrations, held at the  
Tondoon Botanic Gardens  
Sunday, 1 June 2014
